a debilitating **lack** of jobs

The primary will of the world is no longer about peace or freedom or even democracy; it is not about having a family, and it is neither about God nor about owning a home or land...The will of the world is first and foremost to have a good job.

Everything else comes after that.

## 2 Problems

the collapse of **governance**,  
sometimes in the most

We were a social business long  
before the word became a  
global trend – and inspiration  
(building empowered citizens) is  
the product that we sell.

Over the next 50 years, as population explodes on the continent, under-24s will drive demand. What they will be consuming is what will move the markets – cheap entertainment, aspirational goods, education, faith, ready to wear clothes, much of it driven by the internet.

For the media, which is our industry, platforms with verifiable mass numbers consuming their content who are able to present same to buyers (advertisers, sponsors) or lock in the direct consumers as members (subscribers) online and offline will **thrive**.

The people who will consume these mass products will need to be **inspired** to keep **going**, to keep **spending**, to increase their **financial capacities**, to grow **markets**.

There is no force in the universe more powerful than an inspired, empowered human being.

We are therefore set and determined to keep providing solutions at the intersection of these two needs – **mass media that inspires.**

The background of the entire image is a gradient of red, transitioning from a lighter shade at the top to a darker shade at the bottom. Scattered throughout this background are numerous stylized, geometric birds in flight. These birds are rendered in various shades of red, orange, and purple, giving the impression of a large flock. They are positioned in various orientations, suggesting movement across the frame. In the center of the image, the text "We are uniquely positioned for this challenge." is written in a clean, white, sans-serif font. The text is centered both horizontally and vertically, with the words "We are uniquely positioned for this" on the first line and "challenge." on the second line.

We are uniquely positioned for this  
challenge.

With the unrivalled experience and insight and endless networks we have built – boots on the ground – across the 36 states of Nigeria, and 16 countries in Africa, no one knows Nigeria's and Africa's youth as well as we do – across trend-lines in music, movies, development, television, schools, fashion, technology, politics and lifestyle.
